American Psychological Association Referencing System
American Psychological Association Referencing System

The Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences. It provides invaluable guidance on all aspects of the writing process, from the ethics of authorship to the word choice that best reduces bias in language.

Publication Manual of the American Psychological Association

A Complete Resource for Writing and Publishing in the Social and Behavioral Sciences. The rules of APA Style®, detailed in the Publication Manual of the American Psychological Association, offer sound guidance for writing with simplicity, power, and concision. APA Style has been adapted by many disciplines and is used by writers around the world.

APA Style

APA Style is a writing style and format for academic documents such as scholarly journal articles and books. It is commonly used for citing sources within the field of behavioral and social sciences. It is described in the style guide of the American Psychological Association (APA), which is titled the Publication Manual of the American Psychological Association.

A content note generally contains useful information and explanations that do not fit into the primary text itself. Content notes may be given as footnotes or endnotes or even a combination of both footnotes and endnotes. Such content notes may themselves contain a style of parenthetical referencing, just as the main text does.

Parenthetical referencing - Wikipedia

Referencing Systems. There is no universally adopted referencing system for academic writing. Most scholars and students employ one of the most popular systems currently in use in the UK and America, which include:

Warning | Not controlled when printed Maintained by Head of Copyediting | Taylor & Francis | Journals Page 2 of 15 In the text Placement In-text citations generally consist of the surname(s) of the author(s), the year of publication of the work cited, and page number(s) if necessary, enclosed within

Taylor & Francis Standard Reference Style: APA
APA discourages the use of secondary sources unless the original work is unavailable. If you read an article or book which references some information that you also want to reference and you have been unable to locate the original source, cite the source you have read in the Reference list; in text, name the original work and give the citation for the source where you found the information.
